Services

Workplace Culture: A Four-Stage Approach

Our four-stage approach to growing a positive workplace environment can be applied to organizations of any size and any stage of development.

101: Respect in the Workplace: Diversity and Inclusion

This foundation course explores essential topics such as Implicit Bias, structural racism and privilege, microaggressions, In and Out groups, and hidden identities.

102: Growth Mindset Training: Accepting and Delivering Meaningful Feedback

Mindset training provides employees with new perspectives through the prism of equity and inclusion, particularly as it relates to providing feedback and accepting criticism.

103: Communicating for Effective Team Performance

In this course, participants learn the different styles of communication, identify their personal style, and learn how to listen. The course also examines conflict resolution and provides essential tools to mitigate miscommunication.

104: Mental Health and Well-Being: Re-Entry to Life Post-Pandemic

This module focuses on the importance of mental health, and instructs participants in strategies for coping on a day-to-day basis, and can be customized for existing resources available to employees.

105: Fact-Finding in the Global Workplace: Investigation Training

Successfully completing a fact-finding investigation requires accurate data collection, detailed documentation, and compliance with local laws and corporate policies.

106: Respect In the Workplace: Managing Within the Law

Fostering a safe and positive workplace culture begins with the leadership and management of an organization.

107: Sexual Harassment Training

Compliant with local laws in New Jersey, New York State and New York City, this interactive training teaches participants how to bypass inquiry on gray areas using real-life examples, with customized versions for supervisors and managers.
